

Dear Education Specialist,

Please consider adding *The Etiquette Factory* to our curriculum resource list. I am interested in purchasing curriculum from this vendor as soon as possible. For more information, please see below or go to: www.TheEtiquetteFactory.com

The Etiquette Factory curriculum helps families teach manners, social skills, character development, money management, time management and more through games, stories, role play, music, food and kind discussion. The curriculum targets children ages pre-K through high school. In fact, there are two programs for High School students that count as a 1/2 credit of Life Skills.

The Etiquette Factory does accept purchase orders and a 30 day payment plan. For more information on billing and shipping, please email: monica@TheEtiquetteFactory.com or call 865-719-7302.
